Hers Product Overview

Powered by HydraStat™ Nano Delivery

Gone are the days of waiting months to see results from supplementation! We have set out to disrupt the health industry through rapid absorption of key ingredients through our HydraStat technology. Nano sized ingredients are the way of the future, and we are the trailblazers!

Superior Absorption Through HydraStat™ Nanotechnology

Using proprietary HydraStat technology, the makers of Hers have nanosized its active ingredients to nanoparticle sizes that become bioavailable within seconds by oral “swishing” for thirty seconds or longer and then swallowing. Fragile ingredients like Glutathione have been expensive to get into the bloodstream- until now. With our technology glutathione and other key ingredients are affordably available.

Key Ingredients

- **Peony:** Known for its potential to alleviate menstrual discomfort and support hormonal balance.
- **Chasteberry:** Helps support hormonal balance, reducing symptoms related to PMS and menstrual irregularities.
- **Dong Quai:** Traditionally used to alleviate menstrual discomfort and promote hormonal balance.
- **Maca:** Helps support energy levels, mood, and hormonal balance.
- **Ashwagandha:** Traditionally used to reduce stress and promote overall well-being.
- **Black Cohosh:** Commonly used for menopausal symptoms like hot flashes, night sweats and more.

May help with symptoms associated with PMS and Menopause:

- ◆ **Bloating**
- ◆ **Cramps**
- ◆ **Hot Flashes**
- ◆ **Mood Swings**
- ◆ **Low Energy**
